

DEPARTMENT OF BIOLOGY  
DIRECTED READING MENTOR AGREEMENT

---

Sophomore Directed Readings (BIOL 218)  
Junior Directed Readings (BIOL 317, 318)

A student cannot register for Directed Reading until this form is completed. Only students in the COAS Honors Program can register for Directed Readings; only Department of Biology faculty members may serve as mentors. Directed Readings involves pursuit of an independent literature research problem in a sub-discipline of Biology under the direction of a faculty mentor. Directed Reading is preparation for Honors Research; therefore, Directed Readings students are expected to enroll subsequently in Honors Research under the same mentor. The following form is held on file in the office; this serves as a binding contract between the Chairman, Department, Directed Faculty Mentor, and the Student mentee
